IV. ELIGIBLE EXPENDITURE

Expenditure is eligible from the date of commencement of the Project implementation as specified in the Project Contract, regardless of whether its material and financial execution has been completed and/or is still ongoing at the time of submission of the request for additional funds (i.e. expenditure

already incurred and paid from other sources of funding prior to the submission of the request for additional funds, as well as expenditure not yet incurred at the time of submission of the request for additional funds, is eligible). Expenditure must be invoiced and paid by 30 April 2024 in accordance with Article 8.13.3 [of the Regulation](#).

The Programme Operator allows project expenditure to be considered as incurred in the period of eligibility if the costs have been invoiced and paid by 30 April 2024 and the goods have been delivered (in the case of goods) or performed (in the case of services and works) within 3 months of the advance paid to the contractor, provided that the applicable legislation of the Slovak Republic is complied with².

Further details of the eligibility of expenditure are determined by the relevant call under which the project has been supported.

Indirect costs calculated as a flat rate can be increased up to the limit of 15% of direct eligible staff costs, as laid down in Article 8.5.1, letter c) of the [Regulation](#).

V. SUBMISSION OF AN APPLICATION

The application for additional funding shall be made in Slovak with a summary in English on the prescribed form (Annex 1 of the Call). Mandatory or optional supporting documentation may be submitted in Slovak if this is apparent from the nature of the documents (e.g. original project documentation, works contract, bank statement, etc.).

The application for additional funding shall be submitted electronically signed by the applicant via the e-system of the Ministry of Investment, Regional Development and Informatization of the Slovak Republic No. E0006167914. Instructions on how to send the completed application can be found [here](#).

VI. SELECTION PROCESS

The evaluation of applications for additional funding will be carried out in accordance with Article 7.4.8 of [the Regulation](#) as follows:

The Programme Operator will assess the compliance of applications for additional funding with the selection criteria set out in Annex 2 of the call for proposals. For the purposes of this call, the staff of the Programme Operator carrying out this assessment shall be considered as expert evaluators. The results of this assessment will be submitted by the Programme Operator to the Selection Committee set up under the [Statutes and Rules of Procedure of the Selection Committee](#).

² §19, para. 3 and para. 8 of Act 523/2004 Coll. on the Financial Rules of the Public Administration and on Amendments and Additions to Certain Acts

Unless otherwise determined by the Programme Operator or the Selection Committee, while maintaining the principle of equal treatment, only those Project Promoters who meet all the elimination criteria set out in the selection criteria shall qualify for the allocation of additional funds.

At any stage of the selection process, the Programme Operator may request the Project Promoter to provide additional information within a reasonable period of time, normally 5 working days.

If the allocation of funds requested exceeds the available allocation of funds, the first deciding criterion shall be the cumulative amount of total eligible expenditure reported in the latest Project Interim Report submitted by the Project Promoter. This criterion will be used to determine the descending order of the applications, which will be grouped as follows:

- Very high spending (more than 60%)
- High spending (more than 40-60%)
- Average spending (more than 30-40 %)
- Low spending (20-30%)
- Very low spending (less than 20%)

If it is not possible to support all applications in a particular group, the Selection Committee will recommend the application according to the lowest risk level, taking into account the final date of eligibility of expenditure and the public procurement planned under the application.

The Selection Committee shall be entitled to recommend a change to the ranking so established, the change to be duly justified and communicated to the Project Promoter or Project Promoters concerned if the Programme Operator accepts the recommended change. The proposed change shall also be accompanied by a proper justification of the Selection Committee's recommendation not to support a particular application. The Selection Committee may also establish a reserve list (pipeline) of applications that may be supported if additional funding becomes available.

The final decision on the allocation of the additional funding will be taken by the Programme Operator.

VII. STATE AID

In accordance with Article 8.16 of the Regulation, the Programme Operator shall ensure that all state aid provided under the Norwegian Financial Mechanism 2014-2021 complies with the procedural and substantive State aid rules in force at the time the State aid is granted. Since the call is limited to additional activities compatible with the already existing projects, the evaluation of state aid done by the Programme Operator shall proceed in the same way as for the original project.

De minimis aid may be granted to foreign partners if the conditions for its granting are met.

VIII. FURTHER INFORMATION

The additional funding is explicitly linked to the terms and conditions relevant to calls DGV01, DGV02 and DGV03, including financing and reporting, and the project contract as amended, if applicable.

There is no legal entitlement to additional funding.

The Programme Operator is entitled to approve an amount of additional funds lower than requested, in particular in case of a discrepancy between the data in the submitted application for additional funds and the conditions of the call (maximum amount of additional funds that can be requested for the project, co-financing, eligibility of activities, eligibility of expenditure), lack of allocation under the call, etc.

If approved, the provision of funds will be formalised in the form of an amendment to the project contract.
